

Authorization for Dental Radiographs

Owner's Name: _____ Pet's Name: _____

We now have the capability to take high quality, digital radiographs (x-rays) of our patients' teeth. Just as at your dentist's office, these images allow us to visualize, in great detail, the entirety of each tooth, and therefore to diagnose and treat dental disease that would previously have been overlooked, such as tooth root abscesses, fractures of teeth or bone, and even some forms of cancer. We're pleased to be able to offer dental radiographs and invite your questions about this service!

- Yes, please take a complete set of radiographs of my pet's teeth. The cost of this service is \$100 for canines and \$85 for felines.
- No, I decline dental x-rays for my pet. I understand this could result in unresolved dental disease.

Signature of owner or agent: _____ Date: _____
